

# W. L.WALKER CO. INTRODUCES THE TULSA RANGER

The Tulsa Ranger is a unique digital stick-type thermometer. It has a range of versatile features, including a full range of motion- from 0 to 180 degrees. It comes with a stainless probe, or a probe and cable, which can quickly be exchanged. It can be calibrated in the field without having to send it to the factory. The Tulsa Ranger was last seen in the company of the Tulsa Thief. They are both sworn to uphold API and ASTM measurement standards.
