**MEMBERSHIP CLASSIFICATION AND ANNUAL DUES**

- Voting Membership – Available to companies or partnerships that own or operate bulk liquid terminals in the United States. This category includes companies with for-hire facilities that handle products owned by customers, and it also includes product-owning companies operating their own proprietary bulk liquid terminals used exclusively for the facility owner’s products.

Voting members are eligible to participate in the annual meeting of ILTA held in October of each year. Matters voted on by the membership include the slate of officers and directors and other business determined by the Board of Directors.

- International Membership – Available to for-hire or proprietary companies that do not own a terminal in the United States.

Annual dues are based upon the total amount of global storage capacity of tanks used for transportation and distribution, excluding tanks located at refineries or manufacturing facilities.
